DICOTA

Flat

Optical USB mouse with embedded self-retracting cable

Flat optical mouse has a self-retracting cable, which with a gentle pull disappears simply and quickly inside the mouse. Tangled and knotted cables are a thing of the past. Precise working can be achieved with the 1000 dpi optical sensor. Optical USB mouse with embedded self-retracting cable

The three buttons including the scroll wheel and Plug & Play function provide the necessary convenience when working with it. Attractive and practical - Flat is the perfect companion for day to day business life.
